

Info*Mark

Grow your business with InfoMark!

Consumers can now look up InfoMarks as needed allowing them to reference information which you designate as relevant like images, links, photos, video files, audio files, addresses, and more. Never lose an instruction manual again! No more scouring for products on the internet, or hunting for the correct user manual in your home. With InfoMark you can access specific directions for any product and never have to dig through a manual ever again. InfoMark is a game changer that will completely innovate the way virtually every industry communicates with its audience.
